July 17, 1963

## Fall Orientation Shows New Look

Dean C. E. Koerble announced plans for freshman orientation for the Fall semester. The evening orientation meetings will be held on Thursday from 7 to 9 in the Administration Building Auditorium. All freshman are required to attend these meetings.

### Keys Select 70

According to Dr. C. E. Koerble there will be 35 men and 35 women students selected by the Blue Key and Cardinal Key committees from upperclass students to assist in the fall orientation program.

The first hour of these meetings will be a large group assembly of the freshman class in the auditorium. Each division chairman will select one or more of his staff to present information about that division on the evening assigned. Thus, it is hoped that the freshmen will have a broader perspective of the total college offering.

For the final hour the freshmen will be divided into 35 small groups. Each group will be directed by a pair of upperclassmen who will give information to the freshman about the college regulation, customs, and traditions. The freshmen will be free to enter discussions concerning any phase of college life.

This summer Bob Johnson and Jim Sanders are planning and organizing these orientation sections for the fall. Student opinions have indicated that the type of program planned will help the freshman become better acquainted with the student body, staff, and their new role as campus citizens and students. Upperclassmen have offered ideas of the need and interests of the incoming freshman, and are willing to promote this program by offering their assistance.

## Turkish Youths Visit Campus

Eight young people from Turkey are expected to arrive today on NWMSC campus to participate in the Experiment in International Living project. They will be here until July 30 to observe our educational processes and way of life.

Dr. C. E. Koerble is heading the committee in charge of the visit of the seven young people between the ages of 17 and 20 and their group leader who is 32. Included in the group are seven women and one man. Other committee members assisting Dr. Koerble are Dr. Irene Mueller, Dr. James Lowe, Dr. J. A. Dreps, Dean Ralph Messerli, and Mrs. Helen Larson.

The Turkish young people will be living in the dormitories. An American student is being assigned to each member of the group for communication and convenience. The group will be taken on tours and given an opportunity to become acquainted with our country.

This is the first time Northwest Missouri State College has participated in the Experiment for International Living project.

When I was a small boy I was told that anybody could become President. I'm beginning to believe it.

## NWMSC Instructor To Be Missionary

Miss J. Louise Lovell, Home Economics, is one of a group of 33 men and women who will leave the United States this fall to begin three years of missionary service overseas for the Methodist Church.

Miss Lovell, a Dierks, Ark., native, will be stationed in India working in the field of home economics. She attended Southern State College, Magnolia, Ark., and the University of Arkansas, Fayetteville. She graduated with a bachelor of science degree in home economics. She also holds a master of science degree from the university.

For the past three years she has been a teacher in foods and nutrition and director of the Home Management house.

She is a member of the Maryville Methodist Church and is on the board of the Wesley Foundation.

## Mrs. Casper Earns B. S. In 9 Summer Sessions

After nine summers, Mrs. Evadene Casper will receive her degree in Elementary Education in August. She has done all her work by correspondence, extension and in summer school. This summer she is doing her directed teaching.

Mrs. Evadene Casper

"I have never missed or been late for a class. Getting my degree will be a most rewarding experience," said Mrs. Casper.

First enrolling in Northwest Missouri State College in the summer session 1953, Mrs. Casper has attended nine summers. She transferred eight hours from St. Joseph Junior College, three hours from the University of Missouri, and 17 hours from Southwest Missouri State College, Springfield.

Mrs. Casper teaches in the Jaysville elementary school in the winter. Living with her husband, William, she commutes to Maryville daily, a round trip of 124 miles.

CARROLL PROCTOR, renowned baritone will appear July 24 in the NWMSC College Auditorium. His appearance is in conjunction with the music department assembly program.

## Cambridge Debators Will Contend Here This Fall

Something new is coming to Northwest Missouri State College in the manner of the "Old World."

On October 8, 1963 from Cambridge University, Cambridge, England, two noted debators, Michael Howard and John K. Toulmin, will present a debate on the resolved question: "The New Frontier has lost its way."

The Cambridge debators will be in direct opposition to one another on the question. Mr. Howard will debate the affirmative issue of the case with a new colleague, Miss Priscilla Porter, a senior from Northwest Missouri State College. Mr. Toulmin will debate the negative side of the question with Miss Joyce Campbell, a sophomore from Northwest Missouri State College.

Bob Cotter, president of the local chapter of Pi Kappa Delta, a national honor forensics fraternity, will be the moderator at the debate which is to be held in the auditorium of the Administration building.

Both English gentlemen are 21 years of age. Mr. Howard gained most of his formal education from Llanelly grammar school in preparing for his occupation as a barrister or possibly a broadcaster. Mr. Toulmin, educated at Winchester college, also pursues the field of law.

Both men have been active members of debate societies and have been given the honor of traveling throughout the United States and visiting the various colleges across the nation through the Institute of International Education.

The debate was scheduled on the Northwest Missouri State College campus under the direction of Mr. George Hinshaw, NWMSC director of forensics,

Mr. Hinshaw had this to say concerning the coming debate: "I think it will be a most worthwhile and interesting experience for the people of the Maryville area to meet two scholar-debators from England."

## Workshop Library Science

Registration for a special Library Science Workshop will begin at 9 a.m. Monday, July 22 in the Administration building.

According to Librarian James Johnson, the workshop will be of use to all librarians and should help teachers learn to make better use of their school libraries.

A handbook entitled "The New School Library Handbook" will be duplicated and each student enrolled in the workshop will receive a copy. Current trends in school libraries will also be discussed in the workshop.

James Johnson, NWMSC librarian; Mrs. Helen Moore, librarian at Maple Park, Kansas City; and Mr. C. B. Ford, assistant librarian at CMS, Warrensburg, will head a panel discussion.

### Trial Basis

Johnson also announced that the library will be open on Sunday afternoons for student use. This is on a trial basis. If the students do not use the libraries facilities on Sunday afternoons the library will return to the old summer plan, and will not be open for use on Sundays.

With visions of walkout day dancing in her head, freshman Linda Drummond inspects the College Bell. The bell mall has recently undergone a facelifting with new cement replacing the old.

## NORTHWEST MISSOURIAN

### THE COLLEGE OATH

"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will revere and obey the College laws and do our best to incite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

## Better Late Than Never?

We are wondering how we did on the test. Not the test we took yesterday, nor the one we took last week. But the one we took two weeks ago (and a couple from last semester)!

This brings to the issue at hand. Do not our instructors have the same responsibility to grade and promptly return tests as do the students to make thorough preparation for the same?

In our education courses, we are taught that one of the great values of a test is recall—and that greater gain is achieved by a prompt review of the test with a review of the correct responses.

When an instructor has several sections of 50 plus students each, a few days delay in returning papers can be expected; but in a section of only 20 students it seems reasonable to expect papers to be returned the following day. How else can a student know what he is doing in a given course? He may feel he has a satisfactory understanding—yet his test may not indicate this. If he isn't doing so well—he needs to know it and get about some corrective study immediately.

Summer time is conducive to everything but work for most of us. But since some are here to learn and some to teach, it behooves us all to do our parts as promptly as is possible. By so doing we may hope to gain the best results. —SP

## Land of the Free

**P**RESIDENT KENNEDY HAS SENT HIS LONG-AWAITED civil rights proposals to Congress with the recommendation that it remain in session until such a program is passed. What finally prompted this fulfillment of an oft-repeated campaign promise? What forced the President to take decisive action on the oldest and most pressing domestic problem?

The answer is that a revolution is taking place in the South and in the industrial North. The Negro has at last begun to resist the oppression of the white majority on a large scale. After years of hearing about the "land of the free" and "liberty and justice for all" and "all men are created equal," he has started his fight to make the cliches meaningful to him and his children. Now there is no waiting. The battle will be fought until it is won.

**I**T IS STRANGE THAT IN THE LAND OF "FREEDOM," a country which has long taken pride in the individual rights of its citizens and which has not hesitated to tell the world how great and free it is, the Negro has had to fight for his lawful and human rights almost alone. One can only thank the Negro leaders that the fight has thus far been nonviolent.

It is strange that the federal government, which so easily and swiftly brought the steel industry to its knees, has hesitated to act as swiftly for the cause of justice.

It is strange that the Christian Church, from which came loud protests over the elimination of religious practices in public schools, little is heard about the exclusion of the Negro from the church or about his moral rights as a Christian brother and a child of God.

For it was not the federal government which integrated the University of Mississippi, but James Meredith, a man who had the courage to endure the hatred, violence, and fear alone. It was not the liberal whites in either the North or the South who have fought for the gains which the Negro has made, but thousands of American citizens who happen to be black, standing alone for their freedom. They have forced the issue of integration to a crisis. It was not the church which spoke out against inhuman and un-Christian segregation, but Negro organizations alone while the church stood by and said, "Aren't you going too fast?" and "Is now the time?"

**T**HE TIME IS NOW. WITH OR WITHOUT THE AID OF the rest of the country the Negro means to win his freedom and his equality.

White America cannot sidestep the issue. It must either align itself with the responsible Negro organizations which are carrying on the peaceful battle of demonstrations and parades or with the redneck southerners whose weapon is the hood of the KKK and the rifle with the telescopic sniping lense.

How long, oh how long, America?

Bob Johnson

## Inquiring Photographer

What new improvements or facilities would you like to see added to the NWMSC summer school program? This question was asked by the Inquiring Photographer to various students enrolled for the summer session. Many of them answered in almost the same way—more air conditioning and better recreational activities.

I. Inella Kerber, junior, Teynor, Iowa, biology major.

"I would like to see more all school activities such as dances, better and newer den movies, and keeping the den open after supper."

II. Marvin Toft, Exira, Iowa, graduate student in social science.

"I would like to have the library air-conditioned."

III. Gale Brown, graduate student, Beaconsfield, Iowa.

"In summer school, I would like to see more activities, a better variety of curriculum, and an air-conditioned library with additional improved facilities."

IV. Mary Antony, senior, Council Bluffs, Iowa.

"I would like to see air-conditioning added to the dorms."

## Dean Miller Lists Graduate Seminar

Dr. Leon Miller, dean of instruction, reported that two seminars for graduate students will be held between now and the end of summer school. The meetings will take place in the Blue room, Union building from 2 to 4 p.m. July 18 and 25. Following an informal discussion there will be a formal presentation entitled "What Happens During Comprehensive Examinations."

Dr. Miller, Dr. C. E. Koerble, and the graduate students will speak on the subject and participate in a question and answer session.

On July 25, following informal discussion, Dr. Miller will ask graduates for evaluation comments about graduate work. He will also discuss with the graduate students present plans for Wednesday night and Saturday graduate classes during fall and spring semesters.

All graduate students are requested to turn in written reports for suggestions for courses to be offered next fall and spring according to Dr. Miller.

## '45 NWMSC Grad Receives Doctorate

William Lester Graves, jr., a 1945 graduate of Northwest Missouri State College, received his doctorate of education degree from the University of Colorado in that institution's 125th commencement June 7.

Dr. Graves received a bachelor of science in education at NWMSC, and his masters in music education from Drake University in Iowa in 1948.

The title of Dr. Graves' thesis is "A Comparison of Three Methods for Improving Intonation in the Performance of Instrumental Music."

## A ? Of Value

British Labor Party Leader, Harold Wilson, in the recent Profumo-Keeler debate in the House of Commons, is quoted as saying that "There is something utterly nauseating about a system of society which pays a harlot 25 times as much as it pays its Prime Minister." Indisputably, from an economic viewpoint, Miss Keeler's wares are of considerably greater value in Britain than anything Macmillan can offer.

If we believe that a society rewards its members according to the value it places on them, and if judged by the rewards given other elements of society, then teachers in the United States are in somewhat the same position as is Mr. Macmillan. That is, evaluated solely in terms of economics, a teacher's status is low. While we do not believe that teachers should attempt to outdo the Miss Keelers of this world in terms of economic attractiveness, they are in duty bound to try to improve their standing. And, should we think that salaries are of only secondary importance in the profession of teaching, let us not forget that inferior salaries attract inferior teachers.

What can teachers and prospective teachers do to improve the situation? For one thing, they are uniquely able to influence future public opinion. (If teachers are not rated high at the present time, then those who had a hand in educating today's public share the blame.) Secondly, each teacher should do everything in his power to defeat anything that tends to cheapen professional standards. Thirdly, as much as is possible, teachers should resist accepting a contract that offers an inadequate salary. Finally, they should give vigorous support to those organizations that strive for higher rewards and higher standards for the profession. —Owen Eden

## MSC Is Host To Space Scientists

The National Space Administration Spacemobile was brought to the NWMSC campus July 8 for demonstrations and lectures by two space scientists. Two lectures were given—one at 8:40 for Horace Mann students and another at 11 a.m. for college classes and members of the education division of NWMSC.

The lecturers were Lloyd George and Richard Rice of Spacemobile No. 6. They answered such questions about satellites as how they orbit and what keeps them in orbit.

A luncheon for the scientists and Education faculty was held at the Union building that day.

# 16 NWMSC Students to Take Graduate Exams July 26

The comprehensive examination for 16 University of Missouri students who hope to complete their Masters in Education degree requirements from the University of Missouri this summer will be held from 12:30 to 4:30 p.m. Friday July 26. The test will be given in the Lake View dining room in the Union Building. The following students are candidates for the University of Missouri degree:

Edward Lynn Bollinger, William H. Kurtz, Ronald F. O'Dell, Barney C. Parker, Violette Harrington, Audrey Sigrist, Robert Skaith, Minnie Cora Stoner, Vernon Arndt, Norman J. Bush, Fred Fuhr, Jr.

Richard L. Lehman, Milan D. Shaw, Gerry Dean Smith, David Fulton, Mrs. Ethel H. Shroat.

James Hamilton is a candidate for M.S.N. Ed. awarded by Northwest Missouri State College. Separate arrangements have been made for his examination.

## Art Workshop Begins For Area Teachers

A 3-day workshop for Northwest Missouri area teachers began today at Northwest Missouri State College. Thirty teachers from this area are enrolled, according to Charles L. Johnson, chairman of the department of fine arts.

This workshop for teachers is a free educational service provided by Binney and Smith, Inc., manufacturers of crayons and other school art supplies. Miss Violet Eckoff, who holds a master's degree from Columbia University, is conducting the workshop.

The teachers taking this workshop are devoting 15 hours of their own time today, Thursday and Friday to learn about creative art education and some of its materials and tools.

## Textbooks Now On Sale

Books which are now in the textbook room are selling for 25 cents a copy. There are many different books available, including the following: Masterworks of World Literature, volume 1 and 2.

Art Today, 3rd edition. Creative Thinking and Writing.

Speech - Forms and Principles.

The Science of Biology. Personnel Problems of School Administrators.

Introduction to American Public Education.

There are at least ten copies of those mentioned, but there are many other books available in single and duplicate copies. Textbook room hours are, daily, 8:30 to 10:30 A.M. and 1:30 to 2:30 P.M. except Saturday and Sunday.

## MSC Grad of 1959 Receives Masters In Social Work

Donald Ray Jones, 1959 grad of NWMSC, received his masters degree June 1 at the spring commencement of St. Louis University. One of 249 candidates for the advanced degrees, his masters is in social work. He received his bachelor of science in education at North-Missouri State College.

## BOOK DISPLAY ENDS WITH BUFFET SUPPER

The annual textbook exhibit was held July 8 and 9 in the student lounge of Colden Hall with 21 textbook companies displaying new textbooks and other school supplies.

A buffet supper for the representatives of the companies and Dr. J. W. Jones, college president, Dr. Leon Miller, Dr. R. P. Foster, Dr. Charles Thate, Dr. C. E. Koerble, Herbert Dieterich, James Johnson, Luther Belcher, Everett W. Brown, and Dr. M. T. Sheldon was held the evening of July 8 at the Union building.

## Dr. Miller, Family Attend Lions Convention

Dr. and Mrs. Leon F. Miller and two daughters returned recently to their home in Maryville after attending the International Convention of Lions at Miami Beach, Fla., June 19-22, and touring the southern states.

Dr. Miller and family took Mrs. Miller's parents, Mr. and Mrs. R. F. Harmon, Springfield, Mo., with them on the trip. Mr. Harmon is also a Lion. The group traveled 5,250 miles during the three-week period they were gone.

The International Convention of Lions concluded Dr. Miller's term as district governor of District 26-F. He had a 100 percent year and in the future Dr. Miller will be an International Councillor of Lions. Four new clubs were organized in this district during his term and another club was reorganized.

Dr. Miller reports that Aubrey Green of Alabama was elected as president of Lions International which serves more than 700,000 members in 122 countries throughout the world. This was a record-breaking year with 1,034 new clubs established this year, according to Dr. Miller.

Approximately 50,000 Lions, their ladies and families attended the International Convention. Dr. Miller is dean of instruction at Northwest Missouri State College.

## Dr. Foster Returns Home From Scout Ranch in New Mexico

Dr. Robert P. Foster, who spent from July 3 through July 8 as one of four faculty members at the Philmont Volunteer Training Center at Philmont ranch near Cimarron, N. M., returned recently to his home in Maryville.

The other three men on the faculty were John Dinsmore, an industrial engineer for General Dynamics, Ft. Worth, Tex.; Horace Gorton of the National Boy Scout office assigned to regions 8 and 11; and Robert Hempe, deputy Scout executive for the Denver area.

**85 Take Training**  
Eighty-five men from 18 states took the Scout leader training of three sessions for the seven-day course. Included among the leaders taking the training were lawyers, doctors, dentists, college professors, high school teachers, civil engineers, chemical engineers, industrial engineers, research analysts, geologists, insurance executives and salesmen, an Air Force sergeant, machine operators and truckers.

Philmont Ranch had 2,600 Boy Scouts in the mountains climbing the trails at the time Dr. Foster was there. The ranch is equipped to sign in 200 boys each day and sign out the same number. The Kit Carson home is on the ranch and the Sante Fe trail crosses the ranch.

Dr. Foster, who is dean of administration at Northwest Missouri State College, has long been active in Boy Scout work. He was accompanied on the trip by Mrs. Foster and their son. They left June 30 and returned July 10.

## Math Workshop Has Large Enrollment

The elementary mathematics workshop which concludes Friday has the largest enrollment among the 1963 summer workshops on NWMSC campus. Seventy-one are enrolled in the two-weeks workshop which began July 8 under the direction of Dr. Dwain Small, director of programmed learning and math coordinator of the Freeport Public Schools, Freeport, Long Island, N. Y.

Dr. Small is co-author of the American text book series—Southern Illinois University Mathematics Project. He also is the author of numerous articles and curricular materials in elementary and secondary mathematics.

The final workshop of the summer will be the one-week library science workshop from July 22 to July 26. This workshop will examine the new ideas and ideals developed in the new Missouri School Library Handbook recently completed. Registration is Monday for this final workshop.

Sherry Eason to Bob Cobb.

## Successful Year Ends For Everett Brown As Rotary Governor

Everett W. Brown, director of field services at NWMSC recently completed a successful year as governor of District 603 of Rotary. He was succeeded July 1 by F. O. R. Keeney, Liberty, the new district governor.

Mr. Brown attended the annual convention of Rotary International held in June at St. Louis. Rotary International has clubs in 129 countries. There were 15,000 members at the St. Louis convention.

There are 30 clubs in District 603, the North Central Missouri area, and the district added a membership gain of 102 during the past year.

Carl P. Miller, Los Angeles publisher, is the new president of Rotary International.

## Epigrams

One half the troubles of this life can be traced to saying "yes" too quick, and not saying "no" soon enough.

She used to diet on any kind of food she could lay her hands on.

Give the devil his due, but be very careful that there ain't much due him.

## Regents Approve Four New MSC Faculty Members

Four new faculty members have been approved by the board of regents of Northwest State College, according to Dr. J. W. Jones, MSC president. They will assume their duties at the beginning of the fall semester.

Mrs. Ellen Randolph, Knoxville, Tenn., has been appointed to the interim position in home economics while Mrs. Scott Sawyers is on leave of absence. Mrs. Randolph, who currently is employed by Miller's Inc., Knoxville, has a BS degree from the University of Tennessee, and a MS from the University of Tennessee.

Dr. Ronald Burton Jackson has been appointed to the department of education. He acquired his AB degree at Suffolk University, Boston; MA degree at Montana State University, Missoula, Mont.; and PhD in education at the University of Arizona, Tucson. Dr. Jackson has taught in the public schools in Massachusetts, Montana, Wyoming, and New Mexico from 1951 to 1956. He was at the Athens College in Athens, Greece, from 1956 to 1958, and at the Amphitheater Schools in Tucson, Ariz., from 1960-61. He now is principal of the Elementary Taipei American School, Taiwan. Dr. Jackson is married and has two children.

Mrs. Martha Dunn has an interim appointment as a teaching assistant to replace Luther Blatt in the English and speech departments.

Mrs. Mary Jean Patterson will be the first grade supervising teacher in the Horace Mann School. She currently is serving as first grade supervising teacher at Louisiana State University Laboratory School.

## Cat Tales...

— with Marv Bell

The recent major league all-star game ended favorably for most area fans, with the National Leaguers 5-3 win over the American League squad.

However, the game itself lacked the usual all-star thrills of great defensive plays, robust hitting, and top notch pitching. Instead, the 1963 affair was one of misplays in the field, lack-luster offensive attacks, and mediocre hurling.

Willie Mays, the fabulous San Francisco Giant, has to be the most valuable player in the contest because of his inspired play, both in the field and at the plate.

Willie's spectacular grab of a long drive by the New York Yankees' Joe Pepitone was one of the top two defensive plays of the game. The ever hustling Mays raced to the warning track, 380 feet from home plate, caught the ball, and in the process also caught his foot under the outfield fence.

The only other above average defensive play was turned in by the Los Angeles Dodgers' leftfielder, Tommy Davis. With Nellie Fox, Chicago second-baseman, on third, Al Kaline of Detroit rapped a long fly to Davis, who quickly fired home to Ed Bailey. The strapping teammate of Mays easily tagged the surprised Fox.

### Mighty Mite

Little Albie Pearson, Los Angeles centerfielder, had the games' only extra-base hit, a lined double. Earl Battey cracked a 370-foot fly which was hauled in for an out, and Stan Musial, St. Louis Cardinal all time great, drilled a smash to right, but Kaline went to his left for a comparatively easy catch.

Bobby Richardson, Yankee secondbaseman, hit into two double plays, made an error, and looked anything but an all-star.

All told, the 1963 all-star game was sub-par, compared with past contests. The game had few thrills and even fewer all-star caliber plays.

## Johnson Granted Art Assistantship

Charles L. Johnson, chairman of the department of fine arts at Northwest Missouri State College, has been granted a teaching assistantship in the art department of the Illinois State Normal University, Normal, Ill., for the school year of 1963-64.

In addition to the assistantship, Johnson received a scholarship to complete study for a doctoral degree. He has been granted a leave of absence from NWMSC for the year of study.

Johnson came to Maryville in August of 1953 and taught art at Horace Mann School for seven years. He became chairman of the department of fine arts at the college three years ago.

He received his bachelor of arts degree from Central Methodist College, Fayette, and his master of arts from the University of Missouri.

## A's Recall Flyhaw

The Kansas City Athletics recalled Jose Tartabull from their Portland minor league club in the Pacific Coast League last week in an effort to give the team more batting power in centerfield.

The speedy Tartabull hit a respectable .270 for the parent club in 1962 but tailed-off considerably early this year, along with another star rookie of last year, Manny Jimenez.

Tartabull, considered one of the major league's fastest runners, opened the season in center field but soon gave way to veteran Bobby DelGreco.

## PE Class Hears Talk

C. T. Baldwin of B and W Sporting Goods spoke to the members of Dr. H. D. Peterson's PE 155 class Friday, concerning the various phases of athletic goods and equipment.

Following the main introduction by Mr. Baldwin, a question-answer period was held by the group. Included in the speaker's program were a number of sample pieces of equipment, covering major sports.

CONDON'S CORNER DRUG

## Missourian Editor Picks Sonny Over Floyd in Five

World Heavyweight champion Sonny Liston and ex-title holder Floyd Patterson will square off Monday, July 22, in their second meeting.

### Previous Fights

Patterson has a history of knockdowns against him, even though he is known himself as a strong puncher. Ingemar Johansson flattened him no less than seven times before being declared the winner in 1959, in 2:13 in the dramatic third round.

Then on June 20, the following year, Patterson regained his crown with a fifth round KO of Johansson. Even then, however, Patterson was seriously dazed in the early goings of round two, but the Swede failed to follow up his blow, allowing Patterson's head to clear and eventually win the fight.

Then in 1963, in the third match between the two, Johansson pounded Patterson to the canvas twice in the first round. Even though Patterson again KO'd Ingemar later in the fight, his performance was marred with the knockdowns.

### Strong Trainer

The one factor Patterson always has on his side is his ability to maintain a rugged training program. In all of his matches, he has been in top physical condition.

Also of importance, his ability or knack of coming back was displayed in the Johansson fights — a poor showing, a strong performance, and then another lack-luster display of talent. Judging by this criteria, the coming fight should be a strong performance by Patterson.

Even with this in mind, Liston shapes up as too much for Patterson in our view. The end of the trail is in sight for Floyd. It should come somewhere near the fifth round. That is our prediction — Liston in five.

Any takers?
